Figure 19

Operation	State	Undo state	Reboot state	Flag
Install	Prepared	Prepared	ReBoot requested	Changing
Remove	Committed	Undoable	-	In Error
		Restored		-
	-	-		

IC--- means that an Install has been committed

ICU-- means that an Install has been committed and can be undone

IP-BC means that an Install has been prepared and it will be committed during the next reboot

RCU-- means that a Remove has been committed but it can be undone

IC--E means that an Install has been committed but the SP is in error, so the application may not work properly
